

Bridge Course

Sri GVG Visalakshi College is located in a rural area and the students enrolled are mostly first generation learners, hailing from remote villages. They complete their Higher Secondary School of Education from the nearby government schools under vernacular medium. To bridge the gap between higher secondary and tertiary levels of education, a bridge course is being organized for one week and meticulous training in English is provided for the fresher's. A structured plan is sort out for seven days. Every day the faculty members train the students for four hours as per schedule and one hour is allotted for discussion.

The Tamil Medium students are able to shun their fear and easily plunge into the pattern of collegiate education wherein the medium of instruction is English. The students are motivated to speak in English and improve their Language proficiency. Basic English Grammar is taught and tasks are given to develop their LSRW skills. Audio and video are played in order to teach them right pronunciation.
