Career Counselling

The Career Guidance and Placement cell creates a liaison between the student community and the corporate. It also plays a dynamic role in providing guidance and assistance with regard to career opportunities. The Cell offers all possible support to the UG and PG students by organizing student enrichment programmes and training sessions. All job openings are informed and the students are trained with skill-sets necessary for employment.

The college has a structured system for carrying out the career counseling activities. The Placement Cell along with the Placement coordinator of each department guides the students regarding career related challenges. They facilitate contacts between organizations and students and equip them by offering Soft Skill Training, Aptitude Training, Logical Training Programmes, Special Lectures, Motivational Talks, Workshops, Seminars, Conferences and Extraordinary meetings.

On campus recruitment drives is a regular feature of our college through which maximum numbers of students are given career opportunities. Students are encouraged to attend all other off campus interviews so as to increase their chances of getting placed in reputed institutions.
