Problem Solving Session in Group Theory

Resource Person : Mrs. J. Sharadha
Associate Professor & Head
Paramkalyani College
Alvarkurichi, Tenkasi

Topic : Problem Solving Session in Group Theory
Date : 11-12-2023
Time : 9.30 - 3.30 Pm
No. of Beneficiaries : 64
Venue : Room No. 109

The Department of Mathematics organised a problem solving session in Group Theory for one day on 11-12-2023.

* The session started with some basic concepts and results of Group Theory.

* Discussed the properties of Groups ex. being abelian, cyclic, simple, symmetric, subgroups, normal subgroups with simple examples.

* The session improves the knowledge and the understanding of fundamental concepts and results, the ability to construct and solve problems.

The session was much beneficial in apprehending the theoretic content and applying it in solving various problems and realizing simple proofs in an independent way.
