QUEST LECTURE

Venue: G.V.G. Conference Hall - I

An interdepartmental guest lecture was organized on 03.09.2019 with Dr. M. Kalaiselvan, Professor, CAS - Marine Biology, Annamalai University, Parangipettai, Chidambaram on the topic Ornamental Fishes and Marine Microbiology. He spoke about the construction and maintenance of aquarium tanks, water quality, types of ornamental fishes, accessories, aquaculture plants, feed and fish diseases. He also explained the economic importance of ornamental fish culture and different types of microorganisms in marine ecosystems. He added the research opportunities in the new avenues of mushroom cultivation in the field of marine microbiology and renewable and non-renewable resources of marine eco-systems.

105 students from I, II, III B.Sc Zoology and 10 from III chemistry were benefitted through this programme.

REPORT - Guest Lecture on

“Ornamental Fishes and Marine Microbiology”

Date: 03.09.2019

Venue: Conference Hall I

Time: 10.30AM – 12.30 PM

Guest lecture was given by **Dr. M. KALAISELVAM**, Professor, CAS-Marine Biology, Annamalai University, Parangipettai, Chidambaram on the topic **“Ornamental Fishes and Marine Microbiology”**.

SESSION I: Dr. M. Kalaichelvam gave a lecture on ornamental fishes: First he gave an introduction about Fishes and types of fishes, parental care in fishes. He described the types, construction, and maintenance of aquarium tanks and their Physico-chemical parameters of water. He also explained the types of ornamental fishes, selection of fishes, aquarium plants, accessories used, diseases of fish, types of feed and their importance.

SESSION II: Dr. M. Kalaichelvam delivered lecture on marine microbiology: The origin of life started from Bacteria. He discussed about the beneficial and harmful bacteria. He explained the different types of microorganisms present in Marine ecosystems. He focused his lecture on the renewable and non-renewable resources of Marine ecosystems. He added the research opportunities in the field of marine microbiology. He explained about new avenues in mushroom culture and his research areas like use of marine by-products (sea-weeds) in mushroom cultivation.
