## School Report:

### PANCHAYAT UNION MIDDLE SCHOOL, CHINNAVEERAMPATTI.

Department of Computer Science, Sri G.V.G. Visalakshi College for women-  
Udumalpet organized an extension activity "Techno Thump" in our school on 21-02-2024 and  
they gave awareness speech about Cyber Scam.

Students gave various power point presentations and it's very valuable for our students.  
The utilization of PowerPoint presentations featuring tools such as ChatGPT, Canva, AI, and MI  
is commendable. These technologies not only make the presentations visually appealing but also  
enhance the learning experience by providing practical examples and insights into the world of  
cyber security.

By showcasing these tools, students are exposed to the potential of technology in both  
positive and negative contexts, thereby increasing their awareness and understanding of cyber-  
related issues.

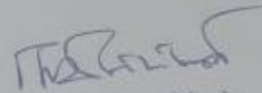

The inclusion of engaging activities like computer-related riddles and connection games  
adds an interactive element to the program, making it more enjoyable and memorable for the  
students.

Overall, the efforts of the Department of Computer Science students, and staff in  
organizing this awareness program deserve praise and appreciation. By taking proactive steps to  
educate students about cyber scams, they are not only contributing to the safety and well-being  
of the school community but also empowering the next generation with valuable knowledge and  
skills for the digital age.

Station:Chinnaveerampatti.
