The Department of Information Technology organizes **"3 Days Student Enrichment Program"** On the title **"Ensuring Data Storage Security in Cloud Computing"**. The chief guest of the session Dr.S.Thilagavathi, presented the keynote address on "Data Storage Security in Cloud Computing" with clear understanding of its importance.

She explained the cloud types, Models, Storage in the world of education, how data, images, information and content needs to be stored in a secure manner. She pointed out the most cloud-based mobile applications offer strong authentication facilities for making sure that the academic material is made available only to the Students. She given example of cloud-based mobile applications in education makes it easy for students to share their assignments with teachers in an easy and trackable manner. Cloud facilitates easy collaborations, allowing student groups to work on projects and assignments on cloud in an effective manner.. It is an most informative session. About 112 students and four faculty members attended the session and benefited.
