Organises

Extension Activity of

**Pre-Plantation Week Celebration**

Report

Udumalpet,  
02.08.2019.

From

Ms. L. Sankara Maheswari,  
Head & Assistant Professor,  
Department of Information Technology,  
Sri G.V.G Visalakshi College for Women,  
Udumalpet.

To

The Principal,  
Sri G.V.G Visalakshi College for Women,  
Udumalpet.

Respected Madam,

Sub : Permission to go for Extension Activity regarding.

Under Extension Activity, the Department of Information Technology has planned to plant trees in their residential areas from 04.08.2019 to 14.08.2019. I request you to kindly permit our III B.Sc IT students for the same.

Thanking You,

Yours sincerely,

DEPARTMENT OF INFORMATION TECHNOLOGY

EXTENSION ACTIVITY

REPORT 2019-2020

**"Our Environment is our Soul; to keep it clean should  
be our Goal"**

Date : 04.08.2019 - 14.08.2019

Under Extension activity, our department has conducted the extension activity program to encourage every **I ,II ,and III year** students to plant trees, in there residential areas, as the contribution to our nation as on behalf of our 73<sup>rd</sup> independence day to make, a healthy and green environment is ever we need to save life on earth forever. The importance of Tree plantation is discussed with the Students with the idea to Plant a **tree here, save another there**, live long and breathe-in clean air and **Join the campaign to save environment**.

Tree plantation is good for the environment. Everyone knows that trees are the source of oxygen. They inhale carbon dioxide and exhale oxygen without which the survival of living beings is not possible on earth. Apart from inhaling carbon dioxide trees also absorb various harmful gases including sulfur dioxide and carbon monoxide and also filter harmful pollutants from the atmosphere thereby providing us fresher and cleaner air to breath. The importance of growing trees is discussed as the trees is,

- Providing fruits and leaves that serve as food for birds, animals as well as human being and Preservation of soil.
- Providing wood, rubber and other raw materials that are used for manufacturing various goods such as furniture, doors, windows, utensils, stationary items and decorative items.
- Habitat for birds and animals And Climate Control.

Even though trees offer so many benefits and are extremely important for maintaining the ecological balance, we are cutting these ruthlessly. Tree plantation is essential to compensate for this loss. To prevent our environment the students planted **40 plants** in their residential areas.

**"ENVIRONMENT IS A GIFT TO US, SAVE AND SECURE IT."**
