## Farming is a profession of hope.

Farmer's Day is a special day dedicated to farmers and their contributions to society. In India, National Farmer's Day is celebrated on December 23rd of each year, which marks the birth anniversary of Chaudhary Charan Singh, who was a farmer himself and served as the Prime Minister of India from 1979 to 1980. The day is also known as Kisan Diwas in Hindi, which means "farmer's day".

A farmer is a person engaged in agriculture, raising living organisms for food or raw materials. The term usually applies to people who do some combination of raising field crops, orchards, vineyards, poultry, or other livestock. A farmer might own the farm land or might work as a labourer on land owned by others. In most developed economies, a "farmer" is usually a farm owner, while employees of the farm are known as *farm workers*. In older definitions a farmer was a person who promotes or improves the growth of plants.

Green Initiatives and Environmental Club commemorated Farmers day on 23 rd December in our college campus by giving space to sell their products. Parents of our students those who are in farming field prioritized to sell their products like Fruits, Greens , Vegetables and Plants. Staff and Students purchased the products .
