REPORT

Little hands and imagination minds came together in a creative burst of energy during the exhibition -EVS Class. We teachers, focuses to bring them to understand the importance of preserving the environment and learn more about sustainability. We should not throw away waste things, we could use them again for different purposes and that we should not cause harm to nature. In order to make children aware of uses of waste material, a best out of waste exhibition was organised for students.

I B.Com Students prepared very creative and innovative models and art items from different waste materials, which were then put up in the exhibition. They used reusable and recyclable materials like news papers, shoe boxes, bangles, ice cream stick's and much more. From these items, they created an amazing array of display items and useful everyday objects leaving everyone totally impressed. The values like preservation, recycling, conservation, reduce, reuse etc are imbibed on the young heart and minds by demonstrating this noble act of caring our environment.
