MOTIVATION THROUGH APPRECIATION
"INSPIRING CYCLISTS"
 (02/12/21)

National Pollution Control Day is observed annually on December 2, to remember the people who lost lives during 1984 Bhopal gas Tragedy. It is also the day to raise awareness about the hazards of air pollution.

While more measures need to be taken to address this problem, it is important to make lifestyle changes from harmful effects of pollution. To instill the importance of change in attitude and behaviour towards sustainability, the students were asked to come to college by walk or to use public transport or bicycle on 02/12/2021, as the emissions from motor vehicles can contribute health problems and Green house effect.

Many students has avoided using their motor vehicles and came by bus/walk. The students who come by bicycle were encouraged, by giving paper pens, and appreciated in form of their certificates, because appreciation is the best and highest form of motivation. This activity of appreciation would have inspired other students, who hesitated to come by cycle as they think that it reflects the socio economic status of them. Now the attitude may change and now they realise they can gain status by cycling. - Come by bicycle/walk signals that they are modern and Environmentally aware.
